As part of their field attachment, the Masters in Public Health (Health Promotion) Part II students are required to carry out a research project in areas of their own choice. The information collected is meant for academic purposes only. It is in this context that we seek your permission to allow **MAWONEKE KUDZAI BRENDA (R101402J)** to collect data from your institution. She intends to carry out a study titled '**Behavioral intention of health care workers to practice hand hygiene against covid 19 at Parirenyatwa Hospital**'.

It is against this background that we request your assistance in any way possible. If further clarification is required, please contact the MPH HP Programme Coordinator, Ms N.A. Katena on 0773 851 093 or academic supervisor Dr J. January on jamesjanuary4@gmail.com.
